# 1 Purpose

This compliance report details the progress of Metro Mining Limited (Metro) against the requirements outlined in approval EPBC 2015/7538. For the purposes of reporting, Metro has elected to report on a financial year basis.

## 1.1 Background

Metro operates the Bauxite Hills Mine (BHM) comprising the tenements controlled by three entities, Aldoga Minerals Pty Ltd, Cape Alumina Pty Ltd and Gulf Alumina Pty Ltd. For reporting and administration purposes, Gulf Alumina Pty Ltd tenements will be referenced to as Skardon River (SR) and Aldoga Minerals Pty Ltd and Cape Alumina Pty Ltd tenements will be known collectively as Bauxite Hills (BH).

This compliance audit report refers to the BH tenements which are located on Cape York Peninsula, in the Parish of Skardon within the Cook Shire. The BHM site is located approximately 85 km north of Weipa and approximately 35 km to the north of Mapoon.

The BH tenements are operated under a State environmental authority for mining (EPML03398515), as well as Commonwealth approval.

The BH tenements includes open cut operations and haul roads, with all other activities associated with the mining of bauxite occurring on the adjacent SR tenements.

Bauxite product from BH and SR tenements are transported via haul roads to the infrastructure at the Port of Skardon River and transhipped by barge to bulk carriers in deep water beyond the mouth of the river for export.

The BHM BH tenements consist of four mining leases:

- ML 20676
- ML 20688
- ML 20689
- ML100130.

## 1.2 Objective

This report addresses condition 15 of EPBC 2015/7538, whereby:

Within three (3) months of every 12 month anniversary of the commencement of the action, the approval holder must publish a report (the Annual Compliance Report) on its website addressing compliance with each of the conditions of this approval, during the previous 12 months. Documentary evidence providing proof of the date of publication must be provided to the Department at the same time as the Annual Compliance Report is published. Reports must remain published for the life of the approval. The approval holder must continue to publish the Annual Compliance Report each year until such time as agreed to in writing by the Minister.

## 1.3 Scope

This report details the commitments outlined within EPBC 2015/7538 and assessment of compliance against conditions for the reporting period 1 July 2020 to 30 June 2021.

A decision to vary the conditions attached to the approval was received on the 11 September 2017. These decisions revoked conditions 2, 3, 4 and 6 of the original approval, deleted conditions 5, 14 and 20 and substitute with new conditions 5A and 5B, 14 and 20. The definition sections were also modified to reflect changes in survey methodology and definitions of habitat and clearance.
